File Code: 3410
Date: June 25, 2001

Mr. Tommy Wright
Staff Forester, Code 2432
Naval Facilities Engineering Command
Washington Navy Yard
Washington, DC 20374

Dear Mr. Wright:

On June 18 and 19, 2001, Rod Whiteman of my staff conducted an aerial detection survey for gypsy moth-caused tree defoliation at Annapolis Navy Academy and Reservation, Pomonkey, Maryland Point, Blossom Point, Naval Observatory, National Naval Medical Center (Bethesda) and D.W. Taylor Naval Ship Research and Development Center (Carderock and Annapolis). I am pleased to report that no defoliation was detected at, or in the vicinity of, your sites.

However, if you anticipate requesting either financial or technical assistance for gypsy moth control in 2002, please contact Brad Onken or Rod by letter or telephone (304) 285-1541 before August 24, 2001.

Please contact Rod at the above number if you have any questions regarding this aerial survey letter.

Sincerely,

JOHN W. HAZEL
Field Representative
Morgantown Field Office
